

Kwik-Track

Kwik-Track - The Space-Saving Track Star

It's the best solution, whenever you're up against the wall.

When space is truly at a premium, Kwik-Track is the optimum solution. It allows putting one or two rows of laterally moving storage units in front of stationary storage units placed against the wall. The result—users can mobilize open file shelving or cabinets to provide greater storage and filing efficiency.

Kwik-Track quickly and brilliantly puts storage, organization, and space solutions on the fast track.

Kwik-Track

MOBILIZED FILE HARBOR

MOBILIZED LATERAL FILES

MOBILIZED FLIP-N-FILE

Kwik-Track Increase filing density with ease.

1. Mobilize Mayline's® popular storage units onto Kwik-Track.

Use Kwik-Track to optimize space using our 4-Post Shelving, File Harbor Cabinets, Lateral Files or Flip 'N File Cabinets. The rear row of cabinets is stationary, while front-mounted cabinets are on a sliding carriage within a track mounted to the floor. Kwik-Track adds only 2 ¾" to the overall system heights and the low-profile track is ADA-compliant.

2. Create (and recreate) versatile configurations to accommodate both space and growing storage needs.

Multiple letter and legal configurations are available. When expansion is in the future, Kwik-Track easily accommodates. It requires minimal dismantling of current systems.

3. Gain safety and quality assurance.

Kwik-Track's heavy-duty, brushed aluminum track with its steel insert construction supports 3,500 lbs. per carriage. It also features an in-track, anti-tip safety feature for greater stability only one drawer open at a time. Counter weight is included to meet ANSI/BIFMA stability requirements.

quick

Quick Ship is available for 4-post (36 x 12 starter and adder) along with Kwik Track carriage and track.

responsive

Easily expand or relocate system with rail lengths up to 15'.

specialized

Multiple storage options including open 4-Post shelving for storage or, locking security available with File Harbor, Flip-N-File or Lateral Files adding security and confidentiality.

space planning

Mayline offers free, expert high-density storage design services. We recommend the best solutions, develop drawings for floor plans, and provide a list of all the materials needed to create an effective storage solution. Call 1-800-822-8037 or email spaceplanning@mayline.com
