**DEFINITION:**

Special Pricing is an additional discount from standard net pricing granted for a specific customer to be used on an identified project in a defined period of time, generally 90 days. Unless previously approved by Safco®, it will be for one purchase order and shipping to one location in a single shipment.

**PURPOSE:**

Special Pricing is extended to our Dealers at the sole discretion of Safco primarily for the purposes of improving our price position in competitive situations. It is understood that the basis for Special Pricing consideration is information that is gathered from our Dealers and Sales Representatives as well as our historical data. To this extent, it is critical that the information supplied by our Dealers and Sales Representatives is complete, accurate and timely.

**GUIDELINES:**

Requests will be considered on competitive projects of \$25,000 list and above. Discretion will be employed for high quantities of lower list price items, or with a specific strategic objective in mind. Safco reserves the right to deny or award requests for Special Pricing at any time to any Dealer.

**PROCEDURE:**

Safco processes Special Pricing requests on a first in, first out basis. Incomplete data will prevent us from processing the request and it will be returned to the Dealer or Sales Representative for completion prior to processing. We strive to provide fast responses to requests, and generally do so within 24 hours. Please allow more time, if possible. To request the Special Pricing Request Form, you may email your request to [bids@safcoproducts.com](mailto:bids@safcoproducts.com) or contact your Sales Representative.

The Special Pricing Request Form may be submitted electronically by emailing to [bids@safcoproducts.com](mailto:bids@safcoproducts.com), or faxed to us at the number on the form. Electronic submission is preferred whenever possible. In special circumstances such as when traveling, computer breakdown, etc., we will process requests via phone, provided all information is complete, in order to provide you the best service possible.

**EXCLUSIONS:**

Special Pricing cannot be granted to Dealers solely for the purposes of improving margins in non-competitive circumstances, nor to place orders for stocked products. Once you have received the purchase order from your customer, Special Pricing requests for that project can no longer be processed. We reserve the right to request a copy of the purchase order from your customer for the purposes of confirming integrity of the process.

By requesting Special Pricing, Dealers and Sales Representatives confirm that they intend to, and will make reasonable efforts to sell the Safco products listed in the Special Pricing request to the named customer. If a Dealer or Sales Representative obtains Special Pricing for the purpose of competitively submitting an alternative competitive product to their customer, Special Pricing requests for that Dealer will be suspended indefinitely at Safco's sole discretion.

**ORDER SUBMISSION:**

In order for Special Pricing to be applied to the appropriate order, the order must reference the Bid Number supplied by Safco at the time of order placement. Failure to include the bid number will prevent Safco order entry from placing your order with the appropriate Special Pricing discount applied; standard discounts will then be used. Credits cannot be issued after Safco order entry has entered your order.

**SPIRIT OF COOPERATION:**

Safco appreciates the opportunity to partner with our Dealers and Sales Representatives in order to enjoy mutual business. It is our pledge to you to make every interaction as productive, fair, and enjoyable as possible. We sincerely appreciate your business and look forward to the many opportunities to work together in the future.

There are many features to consider when selecting the perfect chair to suit your needs. The following symbols will help you choose the features that are right for you. These symbols are used throughout this pricer to help quickly identify each chair's features. The descriptions of the features shown are meant to be general explanations. The actual functions of the features may vary slightly between chair series.

### Seat Height Adjustment

Quick and easy adjustment regulates height of chair relative to the floor.

### Back Height Adjustment

Simple lift motion positions lumbar support within a fixed range to alleviate back stress.

### Seat Depth Adjustment

Positions chair back relative to seat reproducing pressure on the buttocks and thighs for both taller and shorter users.

### Seat Glide Mechanism

Seat cushion travels forward and back, then locks into position.

### 360° Swivel

Chair rotates a full 360° in either direction for ease of motion. Standard on every executive and task chair.

### Tilt

Pivot point located directly above center of chair base (White dot indicates pivot point).

### Mid-Range Knee Tilt

Pivot point located slightly ahead of center of chair base (White dot indicates pivot point). Allows user to recline at a slightly more relaxed angle than conventional center tilt.

### Side Tension

Controls rate and ease with which chair reclines to different weight and strength of users.

### Weight Sensitive Mechanism

Adjusts seat and back angles by sensing the user's body weight and reclines accordingly.

### Dual-Action Tilt

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (White dot indicates pivot point).

### Tilt Tension

Controls rate and ease with which chair reclines to different weight and strength of users.

### Tilt Lock

Locks tilt function when chair is in upright position.

### Posture Lock

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

### Multi-Task Control

Adjusts seat and back angles with a single lever (infinite number of positions within a fixed range).

### Asynchronous Control

Three levers modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking within a fixed range)
- Forward tilt (for keyboard intensive applications)

### Dual-Clutch Posture Control

Adjusts seat and back angles independently with two levers for infinite number of positions within a fixed range (White dot indicates pivot point).

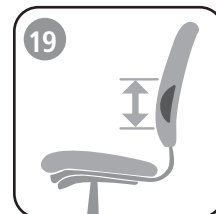

### Variable Synchro-Tilt

Back reclines at a 2-to-1 ratio to seat. Chair can tilt freely, or lock in five positions. "Forward angle" control provides an extra 6° in the range of motion.

### Inverse Synchro-Tilt

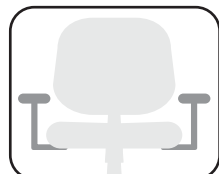

With automatic tension control operation for better circulation. "Zero tilt" seat front helps keep feet on the floor when reclining. Tilt lever controls range of motion.

### Integral Lumbar Support

Easily adjust to enhance comfort.

To determine the height of a unit with media not listed above, first determine the height of the media and add 3/4". Then, round that figure up to the next number divisible by 1 1/2" (because the uprights are slotted on 1 1/2" centers), then multiply that number by the number of tiers desired. Then add 1 1/2" for space that is allotted for the reference shelf. Lastly, add 3/4" for the canopy.
