

# Resi® LED Under Cabinet Light

**Model #** 1019

Enhance your office with the easy-to-install Resi Magnetic Under Cabinet LED Light. Choose your installation method—magnets, double-sided tape, or screws—whatever works the best with your workplace setup. Once installed, use color temperature or dimmable modes to calibrate your lighting. A convenient 30-minute occupancy sensor saves energy by detecting motion and turning the light off when you leave the space. Get this energy efficient under cabinet light right when you need it with our quick ship service.
