

Industrial Wire Shelving

Starter Unit with one Add-on

Snap-on compression sleeves allow easy adjustment of shelves in 1" increments. The dual ridges provide the added contact required for heavy loads

Black
(BL)

Metallic Gray
(GR)

- extra strength welded wire construction shelves support up to 1250 lbs. per shelf*
- industrial wire shelves adjust in 1" increments
- open wire design permits air circulation and reduces dust accumulation
- black (BL) or gray (GR) powder coat finish for durability
- starter unit includes four steel wire shelves, four posts and snap-together clips
- optional add-on unit include four steel wire shelves, two posts and snap-together clips
- extra shelves available in packs of two
- assembles in minutes without tools
- NSF certified
