FOCAL™ STABILIZING FOOTREST

SLEEK AESTHETIC

The unobtrusive and simplistic design of this footrest allows it to stylishly fit into any décor.

RIDGES

Bar has raised ridges for a non-slip surface that you can securely rest your feet on.

LIGHTWEIGHT

The rubber and aluminum construction makes this product lightweight, so you can easily move it around the office or personal workspace for use anywhere.

ENCOURAGES ACTIVITY

Designed to inspire movement throughout the workday, which may help to improve circulation and remove pressure from the feet and back. Pairs well with many Active seats for further dynamic movements.

STURDY BAR

Footrest bar is made of extruded anodized aluminum for a sturdy and long-lasting support.

STABLE

Non-marring, Butyl rubber feet keep the footrest securely in place on both hard and soft surfaces for maximum support.
