### Runtz™ Ball Chair

- 1. Name of Dealer**  
Phillips Workplace Interiors
- 2. Name of end customer:**  
Manheim Central SD – Doe Run Elementary School
- 3. What was the problem the end customer was looking to solve?**  
They were building a new school and they wanted to incorporate different types of seating to give students seating options.
- 4. What Safco product was selected and why?**  
Runtz™ Ball Chair. The Runtz Ball Chair was selected because it provides movement and supports different postures throughout the day.
- 5. How has the Safco product been integrated into the workspace (where/how is it being used)?**  
It is being used in a K-4 Classroom. As one seating choice, the Runtz Ball Chair provides movement and an alternate seating option for students.
- 6. How has the Safco product solved the problem the customer was looking to solve?**  
The Runtz™ Ball Chair fits the size requirements for the K-4 age classroom and offers the students a choice in seating. The movement the ball chair provides also helps to keep the students focused.
- 7. Has the product provided any additional benefits?**  
The functionality of these chairs has benefitted our learners by allowing movement while sitting and helping them to utilize their core strength while sitting. These elements help keep students focused while learning.
- 8. Additional comments/thoughts?**  
I am hopeful these chairs will meet our needs into the future.
