

MAYLINE®

Technology Furniture

As technology continues to evolve with new applications that impact where and how people work - organizations are faced with the challenge of integrating their employees into this constant state of technological change.

At Mayline® we understand the impact this can have in the workplace. Our Technology Furniture solutions are specifically designed to provide the optimal configuration to efficiently connect people, equipment, and technology.

From robust modular benching, desking and storage systems, to collaborative workstations and racking systems, our Technology Furniture can grow with you – adapting to new technologies and supporting your valuable technical assets and employees. Our Technology Furniture is made in the USA and backed by our Limited Lifetime Warranty.

TAILOR-MADE FOR TECHNOLOGY.

TechWorks® benches support up to 1,000 lbs. with a welded support foot and leveler, and are height-adjustable from 26"-38" at installation. Worksurface laminate options include TFL, HPL (900+ choices), ESD, Butcher Block or Stainless Steel.

Two TechWorks rectangular benches connected side-to-side with a shared peninsula table, all with Butcher Block laminate worksurfaces and Textured Black painted frames. Organizer frames, shelves, overhead storage cabinets, Mobile Box/File freestanding pedestals with cushions, tack board, and keyboard tray. Gist™ chairs in Fuse Pristine fabric.

Not just for the back room anymore.

TechWorks® is moving out of the traditional back room with even more flexibility for modern tech-intensive office environments. Employees will appreciate the durable modular desking and benching system of TechWorks with open frames to promote team interaction, vertical storage options to maximize usable workspace, and a host of standard options for greater safety and technology integration.

Its flexible design offers the perfect ergonomic work space while enhancing workflow efficiencies. Our extensive corporate color program and hundreds of laminate choices allow TechWorks to blend seamlessly into any environment, even appealing to a more industrial aesthetic.

TechWorks® Training Room. Combine Desking with TechWorks Storage Centers (in Blue Agave laminate) and Benching in Tangerine laminate and White painted base/frames; 6005AG Tech Stools, and Thesis™ chairs.

TechWorks® Desking. A single station shown in Thermally Fused laminate top in Kiwi with white painted base and Thesis™ chair in Insight Wasabi fabric.

TechWorks® Benching Systems. Shown with Tangerine laminate/White edging surfaces, and White painted base/frames. Accessories include whiteboard, peg board, shelving and part bin panels; and 6005AG Tech Stools.

TechWorks system includes three rectangular benches in Pewter Brush laminate worksurfaces with black edge, and Textured Black paint on base/frames. Two benches are static, back-to-back with a shared organizer frame. One bench is mobile (on casters). Accessories include overhead storage cabinet, shelves, part bin panels, peg board, wire cable basket, power strip and overhead light.

Upgraded furniture for upgraded technology.

From single diagnostic stations to team-oriented engineering spaces, TechWorks delivers exceptional durability and load-bearing capabilities. With its heavy-duty 14-gauge steel legs and organizer frames, along with multiple surface and storage options, TechWorks can be configured in any number of ways to meet different tasks while connecting people with technology.

Use in long runs with or without organizer frames, share with back-to-back benches, or in pod-type setups with corner units and shared frames. Components can be adjusted vertically and laterally for easy reconfiguration.

TechWorks® Corner Units. Includes corner organizer frames in Warm White paint with shelves and fabric tack panels. Corner worksurfaces are in Mahogany HPL laminate with black edge. Rectangle bench (in center) has keyboard tray and Mobile Box/File pedestal in Black. 6005AG Tech Stools.

Benches can be installed from seated (26") up to standing (38") height, and support up to 1,000 lbs.

Storage options install and reconfigure in 1" increments above worksurfaces.

Organizer Frames offer both horizontally and vertically integrated cable management.

Optional baskets keep cables off the floor to maximize safety and reduce clutter.

Complementary Design Service.

Simply provide your space and hardware requirements and we will deliver a 3D CAD drawing with a complete Bill of Materials. Contact spaceplanning@mayline.com or call 800-822-8037.

TechWorks benching system in Blue Medium painted frames with Designer White HPL laminate worksurface with Black edge, and with organizer frames and shelves. Storage Center (in middle) has six locking drawers and matching laminate top. 6005AG Tech Stools.

High tech. Low hassle.

Smart options such as electro-static discharge (ESD) worksurface, grounding accessories, and easily accessible power with integrated cable management make TechWorks ideal for hi-tech work environments. Additional standard components include locking storage, fixed and/or tilting shelves, task lighting, bin storage, power strips, pegboards, fabric/tack panels and whiteboards. Air, gas, and vacuum disconnect fixtures can be positioned on service bars. Optional Chemical Resistant laminate is also available for lab/medical settings. Below surface storage can be integrated within a TechWorks benching run, as an endcap storage center or stand-alone unit.

Work Station. Includes organizer frames, overhead storage cabinets, shelves, whiteboard and tack panel. Shown with Designer White HPL laminate with Black edge and Blue Medium painted frame. Gist™ chair in Syntax Turquoise fabric.

Mobile TechWorks® Table. Supports up to 1,000 lbs. and mobile on (4) 3" casters (2 locking). Shown with Designer White HPL laminate and Blue Medium painted base.

TechWorks® Storage Center (as shown) with Designer White HPL laminate and Blue Medium paint, with six locking drawers.

MAYTRIX® LAN RACKING SYSTEM

Maytrix system with Snapshot Starlight fabric by Guilford of Maine®, Fog Gray TFL laminate, frames in Blue Medium paint and mobile pedestals in Pebble Gray paint.

High-powered, hard worker.

Rugged yet flexible, Maytrix® is the ideal modular support system for organizing local area network communications and monitoring equipment. The simple “building block” design allows organizations to easily specify, add, and reconfigure components as needed.

Start with heavy-duty steel frames featuring 11-gauge steel-welded construction (available in three heights) then add shelves, worksurfaces, and storage units as needed. Or, choose from three preconfigured LAN stations in either 24”W, 48”W, or 72”W to meet a variety of system needs. Well-grounded features support safety of personnel and equipment.

Brass Swivel with banana jack receiver rotates, maintaining a constant ground connection.

The solid brass flush-mount terminals are designed to insure a reliable connection between the ESD Protective Worksurface and ground.

e*LAN™ RACKING SYSTEM

Model 21172 72" LAN Station with optional keyboard supports

Store more for less.

The e*LAN™ Racking System is an efficient and cost-effective solution for network storage that supports your valuable assets without compromise. e*LAN grows and adapts to new equipment and technologies in ways standard furniture simply cannot.

Five standard configurations make planning easy – select from a 72", 48" or 24" LAN Station, a generous 48" Corner Station, or a 24" Server Station to be used alone or in combination.

Worksurfaces and shelves feature thermally-fused laminate in Ice Gray (only) and are complemented by frames in Graphite paint. Frames tested to 1,000 lbs. per 24" frame.

21145 24" Server Station

21124 24" LAN Station with optional casters

21148 48" LAN Station with optional keyboard support

211CNR 48" Corner Station

S/E CABINET

Secure storage.

S/E (Storage and Evidence) Cabinet is the perfect solution for the safekeeping of property and evidence, while maximizing security. The S/E Cabinet features an all-welded steel construction with three shelves that are adjustable in 1" increments. Perforated locking doors with four hinges each, and tamper-proof hinges inside the cabinet (not accessible from the outside), provide additional security. A hinge holds doors open, or closed when lock is not engaged. Two cabinet options: 36"W with double door (shown), or a 24"W cabinet with a single door. Available in Black, Graphite or Desert Sage paint.
