e5 PRIVATE OFFICE

TECHNOLOGY BELTWAY™

e5 TECHNOLOGY WALL

## 5 reasons e5™ is the easy solution.

### 1. easy to install.

Save both time and money with e5's smart and uncomplicated design that installs in 30-40 percent less time than typical industry models.

### 2. easy to power.

e5's patent-pending Technology Beltway™ allows power to seamlessly thread throughout any configuration, even after systems have been assembled – putting power within easy reach.

### 3. easy to reconfigure.

As needs change, e5 responds with common-sense components that offer abundant reconfiguration possibilities to reuse, rearrange, or reinvent your workspace.

### 4. easy to specify.

Selection and planning are trouble-free with e5's logical and intuitive structure, along with minimal parts for installation, which makes specifying simple and fast.

### 5. easy to afford.

Impressive cost/feature ratio with superior technology integration, exceptional finishes, contemporary colored accents, and boundless storage options.

## expressive

Inspired environments begin with e5's broad range of modular components, color, material, and finish options. From overhead storage doors in vibrant contemporary colored glass, to 900+ laminate color and texture options, to colorful fabric selections for storage cushions and tack boards – users will have more control over both style and their space.

## enterprising

e5 breaks down the barriers and builds up cost-savings by delivering optimum configurability options with three basic elements: worksurfaces, storage, and power/data solutions. Realize a higher return on your investment with e5.

## empowered

e5 offers easy-to-power innovation that the modern world demands. Technology walls and beltways are available in a variety of 8-wire/4-circuit Power Kits that accommodate even the most tech-intensive environments.

## expansive

Tackle storage challenges with a myriad of e5 storage options that enhances productivity and the use of space, from overhead to freestanding, from layered height to surface supporting, allows near endless configurations.
