

2018 PRICE LIST

SAFCO® AND MAYLINE®

DEFINITION:

Special Pricing is an additional discount from standard net pricing granted for a specific customer to be used on an identified project in a defined period of time, generally 90 days. Unless previously approved by Safco® – Mayline®, it will be for one purchase order and shipping to one location in a single shipment.

PURPOSE:

Special Pricing is extended to our Dealers at the sole discretion of Safco – Mayline primarily for the purposes of improving our price position in competitive situations. It is understood that the basis for Special Pricing consideration is information that is gathered from our Dealers and Sales Representatives as well as our historical data. To this extent, it is critical that the information supplied by our Dealers and Sales Representatives is complete, accurate and timely.

GUIDELINES:

Requests will be considered on competitive projects of $20,000 list and above. Discretion will be employed for high quantities of lower list price items, or with a specific strategic objective in mind. Safco – Mayline reserves the right to deny or award requests for Special Pricing at any time to any Dealer.

PROCEDURE:

Safco – Mayline processes Special Pricing requests on a first in, first out basis. Incomplete data will prevent us from processing the request and it will be returned to the Dealer or Sales Representative for completion prior to processing. We strive to provide fast responses to requests, and generally do so within 24 hours. Please allow more time, if possible. To request the Special Pricing Request Form, you may email your request to bids@safcoproducts.com or contact your Sales Representative.

The Special Pricing Request Form may be submitted electronically by emailing to bids@safcoproducts.com, or faxed to us at the number on the form. Electronic submission is preferred whenever possible. In special circumstances such as when traveling, computer breakdown, etc., we will process requests via phone, provided all information is complete, in order to provide you the best service possible.

EXCLUSIONS:

Special Pricing cannot be granted to Dealers solely for the purposes of improving margins in non-competitive circumstances, nor to place orders for stocked products. Once you have received the purchase order from your customer Special Pricing requests for that project can no longer be processed. We reserve the right to request a copy of the purchase order from your customer for the purposes of confirming integrity of the process.

By requesting Special Pricing, Dealers and Sales Representatives confirm that they intend to, and will make reasonable efforts to sell the Safco – Mayline products listed in the Special Pricing request to the named customer. If a Dealer or Sales Representative obtains Special Pricing for the purpose of competitively submitting an alternative competitive product to their customer, Special Pricing requests for that Dealer will be suspended indefinitely at Safco – Mayline's sole discretion.

ORDER SUBMISSION:

In order for Special Pricing to be applied to the appropriate order, the order must reference the Bid Number supplied by Safco – Mayline at the time of order placement. Failure to include the bid number will prevent Safco – Mayline order entry from placing your order with the appropriate Special Pricing discount applied; standard discounts will then be used. Credits cannot be issued after Safco – Mayline order entry has entered your order.

SPIRIT OF COOPERATION:

Safco – Mayline appreciates the opportunity to partner with our Dealers and Sales Representatives in order to enjoy mutual business. It is our pledge to you to make every interaction as productive, fair, and enjoyable as possible. We sincerely appreciate your business and look forward to the many opportunities to work together in the future.

HELPFUL HINTS WHEN SPECIFYING e5™

Mayline-Safco's e5 desking line was designed to be easy to specify. The following diagrams will assist you in the steps in designing spaces for private offices to open plan desking areas. Components, when rearranged, work in a variety of office settings offering a uniform and coordinated look throughout the entire office.

Plan your space – With the assistance of our space planning department and the e5 on-line planning survey or self-specifying tools such as GIZA and CAP design libraries, it's easy to plan your space based on room dimensions and end-user requirements. Complete assemblies have been configured so only one model number has to be ordered comprised of (one) worksurface, surface supports and undersurface surface channel for maximum unit stability.

CHOOSE FROM THE FOLLOWING TWO OPTIONS:

1 PRIVATE OFFICE ENVIRONMENT

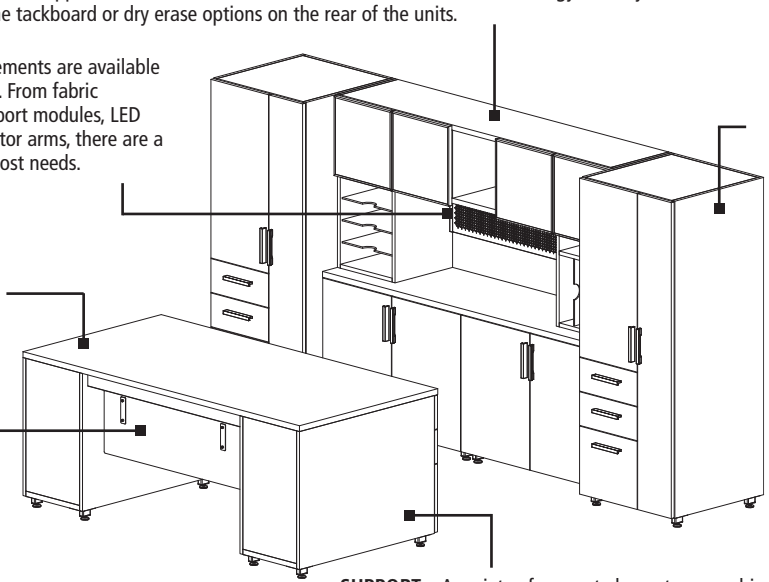
ABOVE SURFACE STORAGE – e5 has a number of overhead storage options for private office and open floor plan. Traditional overhead cabinets with a choice of open fronts, sliding acrylic marker board or frosted glass or laminate hinged doors can be wall mounted or surface supported. Overhead units can also be mounted on the technology beltway or on the wall for additional storage. For privacy use the tackboard or dry erase options on the rear of the units.

ACCESSORIES – e5 optional elements are available to personalize each workstation. From fabric cushions and tackboards to support modules, LED task and desk lighting and monitor arms, there are a variety of options for meeting most needs.

WORK SURFACE – Choose from three shapes (rectangular, hatchet or tapered) in a variety of sizes.

PRIVACY SCREENS & MODESTY PANELS – 12½" modesty panels are available in matching TFL or frosted acrylic.

Frosted acrylic privacy panels provide above surface face-to-face space division. They provide limited privacy and are not designed for sound masking.



BELOW WORK SURFACE, SURFACE HEIGHT STORAGE & FREESTANDING STORAGE – A wide selection of conventional storage options are available with a variety of opening combinations. Below work surface cabinets can double as a support mechanism creating a layered look and saving space in smaller footprint spaces. Mobile pedestals, lateral files, bookcases, wardrobes, and sliding and hinged door cabinets are available to fill all storage.

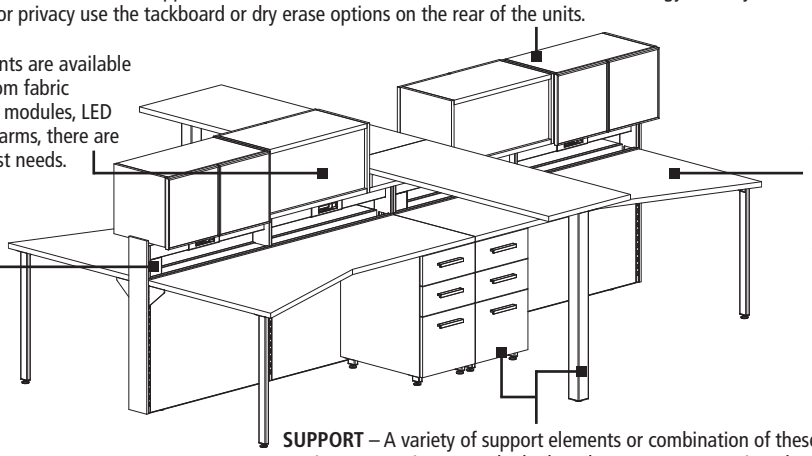
SUPPORT – A variety of support elements or combination of these options are available to give your environment the look and structure you require. Choose from standard height legs, full end panels or support pedestals for traditional work surface support. Short legs and combinations of short and standard legs offer a unique layered look when combined with storage elements.

2 OPEN PLAN ENVIRONMENT

ABOVE SURFACE STORAGE – Mayline-Safco's e5 has a number of overhead storage options for private office and open floor plan. Traditional overhead cabinets with a choice of open fronts, sliding acrylic marker board or frosted glass or laminate hinged doors can be wall mounted or surface supported. Overhead units can also be mounted on the technology beltway or on the wall for additional storage. For privacy use the tackboard or dry erase options on the rear of the units.

ACCESSORIES – e5 optional elements are available to personalize each workstation. From fabric cushions and tackboards to support modules, LED task and desk lighting and monitor arms, there are a variety of options for meeting most needs.

POWER & DATA – Via e5's patent pending technology beltway or technology wall, power and data can be carried to the user at seated height. These units are easy to specify using preconfigured power kits and easy to install by simply dropping into the proper space in the beltway or wall. 4-circuit hardwire or single circuit plug-in systems are available.



WORKSURFACE – Choose from three shapes (rectangular, hatchet or tapered) in a variety of sizes.

SUPPORT – A variety of support elements or combination of these options are available to give your environment the look and structure you require. Choose from standard height legs, full end panels or support pedestals for traditional work surface support. Short legs and combinations of short and standard legs offer a unique layered look when combined with storage elements.

e5™ POWER AND DATA MANAGEMENT GSA

How to Specify: Please refer to pre-configured Typicals section for examples of e5 workstations.
(Space planning is available to assist in these decisions.)

1. **Beltways or Walls:** Based on your configuration, choose either Technology Beltways or Technology Walls. Both provide equal power/data connectivity, but work with different types of work surfaces.
2. **Single- or 4-Circuit Power:** For configurations with only one (1) Beltway or Wall, you have the option of selecting single-circuit (plug-in) or 4-circuit (hardwired) power. Two (2) or more Beltways or Walls in a configuration require 4-circuit power for adequate power capacity. (See specifications below for power system details.)
3. **Starters:** Choose the Beltway or Wall 'Starter' unit based on your power needs and size of work surfaces. Starters include Beltway or Wall, infeed cable (72"L plug-in for single-circuit or 144"L hardwired for 4-circuit), dual-sided power blocks with 4-outlets per side, and data plate cut-outs. (See charts below for specifics.) If selecting a plug-in (single circuit) starter, adder sections cannot be joined to it.
4. **Adders:** Choose the Beltway or Wall 'Adder' unit(s) based on your overall configuration. Adders include Beltway or Wall, dual-sided power blocks with 4-outlets per side, 34"L connecting cable, and data plate cut-outs. (See charts below for specifics.)

- Power kits can be reconfigured at any time with no tools required
- Power kits are UL Recognized and CSA Certified
- Single-Circuit kits are rated for 20 amps. 4-Circuit, 8-Wire kits are rated for 80 amps
- It is the customer's responsibility to ensure that the use of electrical systems, including the number of receptacles on a given circuit and connection to the building's power source, be in compliance with all electrical codes. Refer to the chart below for typical power usage by common office equipment
- City of Chicago solution available. Hard wiring by an electrician required. Contact Space Planning for alternative part numbers

There are many features to consider when selecting the perfect chair to suit your needs. The following symbols will help you choose the features that are right for you. These symbols are used throughout this pricer to help quickly identify each chair's features. The descriptions of the features shown are meant to be general explanations. The actual functions of the features may vary slightly between chair series.

Seat Height Adjustment

Quick and easy adjustment regulates height of chair relative to the floor.

Back Height Adjustment

Simple lift motion positions lumbar support within a fixed range to alleviate back stress.

Seat Depth Adjustment

Positions chair back relative to seat reproducing pressure on the buttocks and thighs for both taller and shorter users.

Seat Glide Mechanism

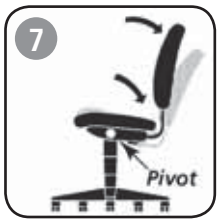
Seat cushion travels forward and back, then locks into position.

360° Swivel

Chair rotates a full 360° in either direction for ease of motion. Standard on every executive and task chair.

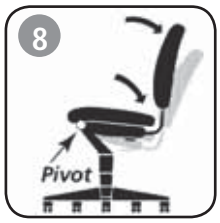
Tilt

Pivot point located directly above center of chair base (white dot indicates pivot point).



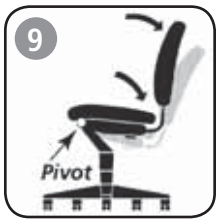
Mid-Range Knee Tilt

Pivot point located slightly ahead of center of chair base (white dot indicates pivot point). Allows user to recline at a slightly more relaxed angle than conventional center tilt.



Knee Tilt

Pivot point located near front edge of chair (white dot indicates pivot point). Allows user to keep feet flat on floor while chair reclines.



Synchronized Knee Tilt

Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair base (white dot indicates pivot point).

Dual-Action Tilt

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (white dot indicates pivot point).

Tilt Tension

Controls rate and ease with which chair reclines to different weight and strength of users.

Tilt Lock

Locks tilt function when chair is in upright position.

Posture Lock

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

Multi-Task Control

Adjusts seat and back angles with a single lever (infinite number of positions within a fixed range).

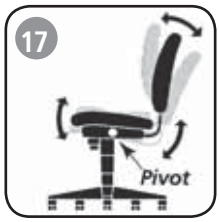
Asynchronous Control

Three levers modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking within a fixed range)
- Forward tilt (for keyboard intensive applications)

Dual-Clutch Posture Control

Adjusts seat and back angles independently with a two levers for infinite number of positions within a fixed range (white dot indicates pivot point).



Variable Synchro-Tilt

Back reclines at a 2-to-1 ratio to seat. Chair can tilt freely, or lock in five positions. "Forward angle" control provides an extra 6° in the range of motion.

Inverse Synchro-Tilt

With automatic tension control operation for better circulation. "Zero tilt" seat front helps keep feet on the floor when reclining. Tilt lever controls range of motion.

Integral Lumbar Support

Easily adjust to enhance comfort.

CONFIGURATION GUIDE

Configuration Guide for Mixed Media Applications

Media	Description	Clearance Space	Upright Space Required
	Letter/Legal Side Tab	9 3/4"	10 1/2"
	Letter/Legal Standard Top Tab, 1/3 cut	11 1/4"	12"
	3-Ring Binders	12 3/4"	13 1/2"

To determine the height of a unit with media not listed above, first determine the height of the media and add 3/4". Then, round that figure up to the next number divisible by 1 1/2 " (because the uprights are slotted on 1 1/2" centers), then multiply that number by the number of tiers desired. Then add 1 1/2" for space that is allotted for the reference shelf. Lastly, add 3/4" for the canopy.

How to order Security Shade for a mobile system:

- Mobile 1000 (1000)
- Mobile Lite (ML)
- 4-Post on Kwik-Track (KT)

Next, add the code at the end of the appropriate Security Shade model number.

Example: If you have a 36" wide, 7-tier, 4-Post shelving on Kwik-Track, the appropriate model number would be SS3676KT.

Open-Back Sorters are typically used where mail is passed through – sorted on one side and collected by the recipient on the other

- All sorters are 15" deep with 14" deep sorting shelves. Adjust on 1/2"H increments
- Preconfigured models, designated by the letter **C** are available, or build-your-own by specifying empty sorter designated by the letter **E** and adding components on pages 385-387
- For smoked Plexiglas, add 10% of list and an "S" suffix to standard Plexiglas door sorter, ie SN4824EPS
- Elevated sorters offer more workspace, by raising the sorter off the work area
- Pricing below is for sorters with and without doors
