

LT-Series Height Adjustable Tables

LT-Series - Economical Ergonomics Height-adjustable convenience and control that's uncommonly cost-effective.

LT-Series workstations reflect the ideal balance of quality and affordability in one exceptional sit-to-stand solution. Designed to suit a wide range of employees, the desks operate with a simple flip of a switch, no cranking required. With LT, users can find their unique comfort level from shift to shift, day to day, or hour to hour.

LT-Series

Height Adjustable Tables

ADJUSTABLE KEYBOARD MECHANISM

RECTANGULAR CONFIGURATION

SINGLE SURFACE CORNER

LT-Series

Begin and end work on a high note.

1. Electric drive mechanism.

Travels its entire range in just 13 seconds, easily and reliably.

2. Accomodating vertical range.

16.5" of vertical adjustment, from 25" to 41.5".

3. Desk options to suit a range of spaces and variety of tasks.

Available as a single-surface desk or a double-surface desk with keyboard mechanism, in both rectangular and corner configurations.

4. Sufficent support and industry-recognized design.

Supports up to 120 lbs. and meets ADA standards.

5. Colorful, durable aesthetics.

Thermally-fused laminate work surfaces with T-mold edge and black bases are standard. For an additional charge, the non-adjustable portion of the LT base can be painted in any corporate color, and high-pressure laminate can be selected.

ergonomic

Height-adjustable workstations like the LT-Series play a highly important role in an organization's wellness program. LT's ability to easily respond to users' sit-stand needs will enhance job satisfaction, while attracting and retaining employees.

practical

Its surprising affordability makes the LT-Series a perfect solution for densely populated work environments.

viable

Mayline® LT, as with all height-adjustable offerings, allows customers to choose preconfigured workstations or retrofit existing desks with the LT base.
