

**TechWorks®**  
for the Office

## TechWorks — Not Just for the “Back Room” Any More Meeting the demands of today’s tech-intensive offices.

TechWorks® is moving out of the traditional back room (IT, manufacturing and repair work spaces) and into today’s technology-intensive office environments.

Employees will appreciate this durable desking and benching system that keeps pace with evolving technologies while appealing to today’s popular industrial aesthetic. TechWorks offers a combination of flexible design and modularity that incorporates people with technology, maximizes usable workspace, and enhances workflow efficiencies.

## TechWorks® Flexible furniture for busy technical offices.

### 1. A host of standard options.

Includes locking overhead storage, fixed and tilting shelves, task lighting, bin storage, power strips, cable management accessories, pegboards, fabric/tack panels and whiteboards.

### 2. Variety of surface options.

Standard options include thermally fused laminates (LPL), 900+ high pressure laminates (HPL), butcher block, or electrostatic discharge (ESD) laminate. Chemical-resistant laminate, Stainless steel and Phenolic Resin surfaces available.

### 3. Bench strength to count on.

14-gauge steel legs support up to 1,000 lbs. per Bench. Each Organizer Frame supports up to 400 lbs; and up to 400 lbs. can be stored on shelves below surfaces.

### 4. Accessorize for enhanced safety and technology integration.

Keyboards, monitor arms, and personal storage accessories make work easier. Optional baskets keep cables off the floor to maximize safety and reduce clutter. ESD accessories protect sensitive electronic equipment.

### 5. Appealing industrial aesthetic.

Durable steel legs and organizer frames, numerous surface laminates, and paint options for steel components, allow TechWorks to be configured into offices and/or open benching that appeals to the popular industrial aesthetic of today.

## impressive

Its flexible design offers the perfect ergonomic office space, reducing worker fatigue, enhancing interaction among work groups, and improving employee productivity.

## configurable

Benches can be installed at multiple increments between seated and standing heights. Benches/open frames can be grouped together to promote team interaction. A multitude of options allow for tailor-made solutions in today's modern technical offices.

## industrial

With Mayline's corporate color program and numerous laminate choices, TechWorks can blend in seamlessly with any office environment. Optional vertical storage minimizes office footprints. Privacy can be created by utilizing fabric/tack panels or whiteboards between workstations.

## smart

Features such as ESD worksurface options and integrated cable management are ideal for technical environments. Plus, it's all backed by our Limited Lifetime Warranty.

## space planning

Simply provide your space and technology requirements and we will deliver a complementary 3D CAD drawing with bill of materials to furnish your technical office. Contact [spaceplanning@mayline.com](mailto:spaceplanning@mayline.com).
