# WORK SURFACE HARDWARE

## TAST48, TAST60, TAST72: SINGLE TRANSACTION ADDER "without" ACCESS PANELS

No additional hardware is required with these products.

## TAST48A SINGLE TRANSACTION ADDER "with" ACCESS PANELS

### HARDWARE BAG (PART No. A8117) \* for individual item, order that part number

<u>Item #</u>	<u>QTY</u>	<u>DESCRIPTION</u>	<u>PART #</u>	
E12	4	ANGLE, MOUNTING	B8267*	
E13	9	SCREWS #10-32 x 1/2"	X204*	
E14	8	DOWEL PIN. PLASTIC	F783*	
E15	8	2" X 2" SPACER	E544*	

## TAST60A, TAST72A SINGLE TRANSACTION ADDER "with" ACCESS PANELS

### HARDWARE BAG (PART No. A8118) \* for individual item, order that part number

<u>Item #</u>	<u>QTY</u>	<u>DESCRIPTION</u>	<u>PART #</u>	
E12	6	ANGLE, MOUNTING	B8267*	
E13	13	SCREWS #10-32 x 1/2"	X204*	
E14	6	DOWEL PIN. PLASTIC	F783*	
E15	6	2" X 2" SPACER	E544*	

1. Install tube inserts (E1) into leg (1).
2. Screw glide (E2) into inserts.

NOTE: If the desired configuration utilizes multiple adders, substitute an adder leg for the right hand starter leg shown in the following steps.

NOTE: The illustrations shown here reflect a 60"W or 72"W table. If installing a 48"W, part quantities may vary.

NOTE: If installing a table without access panels (7), proceed to Step 4.

3. Attach mounting angles (E12) to trough side (3) using screws (E13).

4. Install screws (E3) to the inside of leg (the side opposite gusset flange), leaving approximately  $1/8"$  between screw head and leg tube.
5. Using slots in trough sides (3, 4), hook trough sides onto screw heads on both legs. DO NOT TIGHTEN SCREWS.

**NOTE: If installing a table without access panels (7), proceed to Step 7.**

6. Attach mounting angles (E12) to beam (2) using screws (E13)
7. Install beam (2) from rear, sliding onto legs. Secure beam (2) with screws (E3) and washers (E4). Tighten all screws (E3) at this time.
8. Insert bushing (E9) into trough side (3).

9. Lay pan (5) onto trough sides flanges (3 & 4). Secure pan (5) to trough sides (3 & 4) using pine tree clips (E11)

10. Install slam latch (E8) into slot in the inner leg panel (8) as shown.

11. Insert tabs in the bottom of inner leg panel (8) into slots in foot. Rotate inner leg panel (8) up so that slam latch catches flange on pan (5).

13. Insert square hole plugs (E7) and pine tree clips (E10) into holes in beam. NOTE: This step should be done after privacy panels or monitor posts are installed in the beam.

For tables "WITHOUT" Access Panels (7).

14. Position work surface (6) without access panels and secure with screws (E5).

For tables "WITH" Access Panels (7).

14. Insert dowels (E14) into holes in access panels (6) as shown below. NOTE: For 48" W tables use the positions shown in the far left and right of the view below.

15. Lay access panels (7) onto table frame so that dowels engage holes in mounting angle.

16. Insert spacers (E15) between access panels and work surfaces as shown (2 per access panel).

17. Position work surfaces and secure with screws (E5). Remove spacers.

18. Remove screws (E5) from existing worksurface and install top joining angle (9) using screws (E6).

19. Position work surface (6) and secure using screws (E5).

(6)
