

► TEMPERATURE CHECKING STATION

► 7566BL - Temperature Checking Station - 3-Sided List Price \$1990

- A critical component to a complete post-COVID19 return-to-workplace strategy
- Protective mobile station helps promote safer temperature checking procedures
- Clear acrylic panels on three sides create physical barriers to help reduce exposure to airborne droplets created by coughing, sneezing and talking
- Convenient 20" vertical cutaway slot in the front panel allows user to capture temperatures of people across a range of heights while otherwise remaining better protected
- Sturdy steel frame with a chip-resistant black powder coat finish ensures long-lasting durability in a variety of indoor environments
- Fixed shelf coordinates with the frame and provides plenty of space for any necessary binders, check-in lists or temperature-taking tools
- Four 3" casters – two locking – allow for easy repositioning or relocation of the station around your reception area, office, clinic or small business
- Sleek, economical design coordinates with any décor and offers easy cleaning and maintenance
- Assembly required - Thermometer not included.
- Temperature Reading Station: 38"W x 31-1/4"D x 71-3/4"H
- Shelf: 12"D x 36"H
- Panel Cutaway Slot: 20" (Measured from Floor: 47" – 67"H)
