

Lateral Files

Lateral Files - Long-Term Workability

A strong, no-nonsense filing solution designed to withstand everyday use.

Our rugged, all-steel-construction Lateral Files deliver performance that's built to last. But it's our ingenuity that delivers them at an exceptional value.

Mayline® offers Lateral Files with 2, 3, 4 or 5 drawers and in two widths. Stylish recessed pulls combine with heavy-duty, full-extension telescoping slides to ensure easy operation time after time.

For worry-free workability that's designed to last, rely on Mayline Lateral Files.

Lateral Files

Lateral Files

Reliable performance,
day in and day out.

1. Choose the ideal size to correspond with filing needs.

Lateral Files are available in either 36" wide or 42" wide. Choose 2, 3, 4 or 5 drawers. The top drawer of the 5-high unit is a rollout shelf. Side-to-side rails support letter, legal, or A4 filing. Front to back filing rails and dividers are available.

2. Choose the perfect color to complement workspace.

Standard finish options include Black, Medium Tone, Desert Sage, and Mist.

3. Get maximum use and complete reliability.

Lateral Files feature full-drawer extensions on steel ball-bearing telescoping slides and full-width recessed designer drawer pulls. All units also feature an anti-tip, interlocking drawer system that allows only one drawer open at a time. Counter weight is included to meet ANSI/BIFMA stability requirements.

4. Options add efficiency.

Optional front-to-back filing rails and divider kits (black only) are available for added file and retrieval efficiencies.

optimized

Lateral Files can be mobilized on Mobile 1000™ or Kwik-Track to make them even more space-efficient.

safe

An anti-tip interlocking drawer system is featured in all units.

rapid

Available on Quick-Ship, all 4 colors and 8 sizes, with some quantity limitations. All Lateral Files ship keyed random.

space planning

Safco® offers free, expert high-density storage design services. We recommend the best solutions, develop drawings for floor plans, and provide a list of all the materials needed to create an effective storage solution.
