

## Maytrix® LAN Racking System

### Maytrix LAN Racking System — All Systems Go Easy to expand, easy to afford.

Rugged, yet flexible, Maytrix® is the ideal modular support system for organizing local area networks, communications, and monitoring equipment. The simple “building block” design allows organizations to easily specify, add, and reconfigure components as needed. Start with heavy-duty steel frames, available in three heights, and add shelves, worksurfaces, and storage units as needed. Or choose from three preconfigured LAN stations that meet a variety of system needs.

# Maytrix® LAN Racking System

24" BASIC LAN STATION

48" CONSOLE TYPICAL

72" DELUXE TYPICAL STATION

## Maytrix LAN Racking System Work on the safe side.

### 1. Static-safe features provide assurances.

The ESD protective work surface option provides a static safe work area by providing an electrical path to ground. It assures safety of personnel when handling electrical items on the surface.

### 2. Well grounded features support safety.

Solid brass flush-mount terminals are designed to ensure an intimate, permanent, and reliable connection between the ESD protective work surface and earth ground.

### 3. Well connected features protect workers.

The solid brass grounding jack, banana-jack receiver rotates while maintaining a constant connection with the ground to assure personnel protection.

### 4. Strength and performance to count on.

Maytrix features 11-gauge steel-welded construction. Individual frames support up to 800 lbs. each. Frames bolt together to expand capacity and are also slotted in 1" increments for easy shelf and workstation configurations.

### 5. Features and options for a highly organized system.

CPU floor shelves include glides or casters. Extensive cable management and storage options are available.

## simple

In addition to the easy "building block" design, Mayline® makes choosing Maytrix even easier with three preconfigured LAN stations to meet a variety of system needs. Choose from typical stations in either 24"W, 48"W, or 72"W, and all ship complete in a single carton.

## harmonious

Create a "systems" office look with optional fabric panels and surface options that include thermally fused laminate, high-pressure laminate, and ESD laminate.
