Gensler 2021 U.S. Workplace Survey

# Designed For Everyone, Everywhere

For over 55 years, we've paid close attention to the needs of workers and made it our mission to create furniture solutions that enable a higher level of performance. By observing the behavioral needs of people working alone and together, we've been able to leverage the power of purposeful design to enhance the experience of work.

1.

2.

3.

## 1. Personal

With intuitive adjustments and smart features, our seating keeps you comfortable so you can perform at your best.

## 2. Hardworking

Meeting all ANSI/BIFMA requirements and backed by a limited lifetime warranty, you can be assured our chairs will support you for the long haul.

## 3. Responsible

As an environmentally conscious company, we implement responsible practices that help to ensure a safe and healthful work experience.

## For All The Ways You Work

The experience of work is more fluid than ever. On any given day, workers will move throughout an office landscape as they work independently, connect with others, or break away to recharge. That's why Safco offers such a comprehensive portfolio of chairs. Designed to embrace a broad spectrum of settings, postures, and work activities, our seating provides ultimate comfort for the spaces where people need to focus, share, create, and learn.

# Focus Spaces.

Thoughtfully designed quiet spaces and private nooks, Focus areas encourage deep thinking and provide opportunities for uninterrupted exploration and problem-solving. They enable heads-down individual work or engagement with others to accomplish goals.

- Behavior

Contemplate & Concentrate
- Space

Areas that allow for distraction-free downtime and concentration.
- Seating

Supports personalization so workers can fine-tune comfort during intensive work sessions.

Offers extensive ergonomic support to accommodate long periods of sitting.

# Share Spaces.

Dynamic and vibrant spaces where people can informally gather to relax, refuel, or get inspired, Share spaces help connect people to their organization and to each other. Centrally located to encourage collaborative collisions, these spaces are designed to foster unplanned conversations that spark new ideas and drive work forward.

- Behavior** Connect & Converse
- Space** Areas that foster connection and spontaneous interaction.
- Seating** Accommodates the different postures, from sitting to lounging to perching, of various workers who will come and go.

# Learn Spaces.

Stimulating learning in all its forms and facilitating information sharing, effective Learn spaces need to accommodate different instructional styles, evolving technology, and diverse participant needs. Comfort and flexibility become the hallmarks of any successful Learn space designed to keep active minds fully engaged for enhanced growth.

- Behavior

Gather & Grow
- Space

Adaptive spaces that promote knowledge transfer and interactive learning.
- Seating

Offers responsive ergonomic support for groups of people sitting for extended periods. Includes mobile solutions that can be easily rearranged and stored.

## Create Spaces.

Create spaces are designed to promote discovery and inspire innovation. They are intended to bring people together to cultivate new ideas and approaches to work or encourage individuals to explore and experiment with new solutions. Whether engaging multiple perspectives or supporting independent invention, Create spaces are about helping organizations support the art of possibility.

<b>Behavior</b>	Discover & Develop
<b>Space</b>	Spaces that facilitate collaboration, exploration, and creation.
<b>Seating</b>	Allows fluid postural changes to be made with minimal adjustments for various workers. Provides responsive ergonomic support for short- or long-term sitting.

Stools

Lounge

TASK

## Up To The Task

Make things happen with comfortable and stylish task chairs that deliver on ergonomic performance and help boost productivity.

EXECUTIVE

# Take Charge of the Workday

Equally suited for the private office or the board room, executive chairs keep business leaders and big and tall users comfortable with premium details and exceptional support.

GUEST

# Extend A Warm Welcome

Make visitors feel comfortable, whether that's in your reception area, office, or café, with guest chair options designed to complement your brand aesthetic.

STACKING / NESTING

## Raise Your Expectations

Offering ultimate convenience for flexible spaces and multi-purpose rooms, stacking and nesting chairs are there when you need them and easy to store when you don't.

STOOLS

# Elevate Your Productivity

Ideal for casual collaboration areas and social spaces and for short-term individual work, stools allow people to easily transition from sitting to perching to standing.

LOUNGE

# Find A Cozy Spot

Whether it's to connect and collaborate or kick back and relax, our lounge seating supports more laid-back ways of working when you're away from your desk.
