

# Mirella™ Collection

SAFCO®

## Reshaping The Future of Work

The places where we work matter more than ever. They need to help us fully engage and connect with others. To support concentration as well as collaboration. Mirella™ responds with a comprehensive desking system that offers countless layouts to facilitate individual and team activities throughout a space. With a contemporary aesthetic and residential details, Mirella™ enhances the experience of work to impact effectiveness.

# Planning For Engagement

Rising expectations for collaboration with guests and colleagues have forced companies to account for every inch of space. As a result, welcoming areas are evolving from passive spaces into social spaces that welcome visitors and allow coworkers to engage throughout the day.

# We've Got You Covered

Fostering productivity in the open plan means supporting the needs of the individual and the broader team. From dedicated workstations to touchdown areas for impromptu meetings, Mirella™ accommodates focus and collaboration with a collection that supports all the ways work gets done.

## Hardworking Like You

Workers that rely on privacy and focus still find the private office valuable. What has changed is the way these spaces are designed to support well-being, concentration and impromptu meetings in an ever-shrinking footprint. Mirella's desk, tables and storage elements transform static enclosed spaces into hardworking, multi-tasking areas.

# Move Ideas Forward

The way we work is ever-changing. Workdays are fluid. People and projects are in constant motion. Mirella™ supports the new workday with various-sized seated and standing-height tables that integrate technology to seamlessly blend comfort and convenience for groups of any size.

# Sparking Creativity

Providing creative spaces that help drive new ideas forward are essential catalysts to innovation. Whether used for hands-on problem solving and prototyping or to support a more relaxed brainstorming session, the Mirella™ collection transforms spaces into creative hubs that empower employees to think outside the box.

Floating worksurfaces and decorative residential-style hardware, combine with essential features, such as integrated power and versatile storage, for a flawless blend of form and function.
