

ADAPT™
CONFIGURABLE
SPACE DIVIDERS

The Adapt™ Configurable Space Dividers are a collection of easily movable dividers that allow you to create new spaces without constructing permanent walls. They are easily adaptable to any environment, and are a great low-cost alternative to traditional walls and other panel systems. These flexible dividers provide an ideal balance between privacy and collaboration by creating a semi-private space to meet and work.

» CONFIGURABLE

Adapt is lightweight to easily allow reconfiguration of any space in a short amount of time. The dividers are designed to work together to form different shapes and designs that work with your space and meet your needs whether for a meeting, personal workspace or teaming areas. Each divider comes with a clear connector clip to allow them to be easily connected to one another to create a more seamless look.

» MOVABLE

The lightweight build of Adapt allows the dividers to be quickly and effortlessly moved. The dividers are created to form together, offering different shapes and designs to meet your needs in nearly any space. Each divider has a connector clip so panels are easily latched together for a seamless, professional look. When not in use, the panels are quickly broken down for efficient storage.

» CUSTOMIZABLE

The Adapt fabric is completely customizable—just add your logo, brand colors, graphics and tag line to any of the pieces. Pantone® colors are easily matched along with print patterns and designs which will complement any workspace décor. In addition, your creation will ship within 1 week following artwork approval so you can have your new, customized, space dividers just in time!

Below are examples of applications and thought starters on how to leverage the Adapt™ line.

» EDUCATION

The Adapt line fits both K-12 and higher education settings. These multi-purpose dividers allow for use in a variety of areas and can showcase school colors and mascot imprinted. Perfect for larger space division or for temporary spaces where reconfiguration of the space is needed—simply and easily.

SPACES TO USE ADAPT:

K-12

- library
- entrance/lobby
